

**Got a cat that always  
wants to go outside?**

Concerned for the  
safety of your cat or  
wildlife?

**Time to get a catio!**

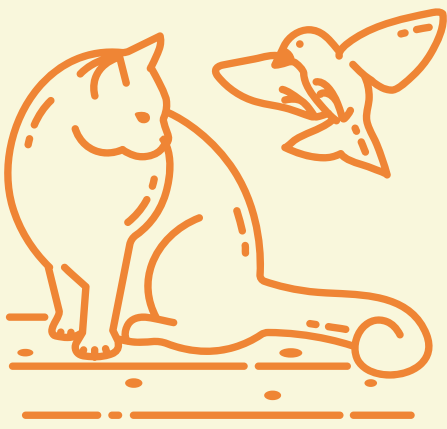

# What is a catio?

Catios are enclosed outdoor spaces designed for cats to enjoy the outdoors safely. They can be simple and small or big and elaborate. Let your creativity go wild!

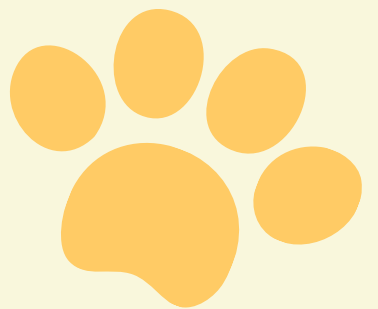

Enjoy outdoor time with  
your cat in a safe space

Reduce indoor odors with  
an outdoor litter box

Reduce conflict in  
multi-cat households

Reduce roaming cat  
populations  
and support Calgary's  
bylaws

Reduce feline  
obesity

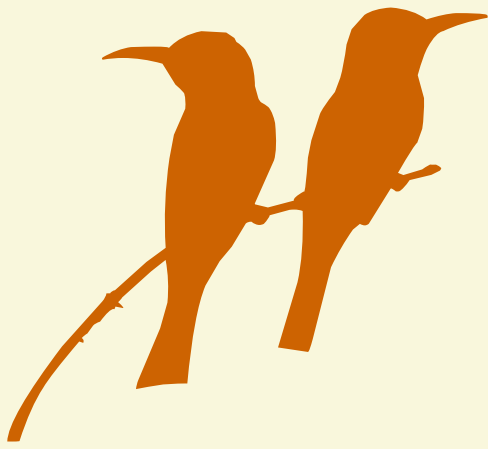

Protect your cat from  
predators, poison,  
disease and vehicles

Give your cat fresh air  
without  
needing to watch  
their every movement

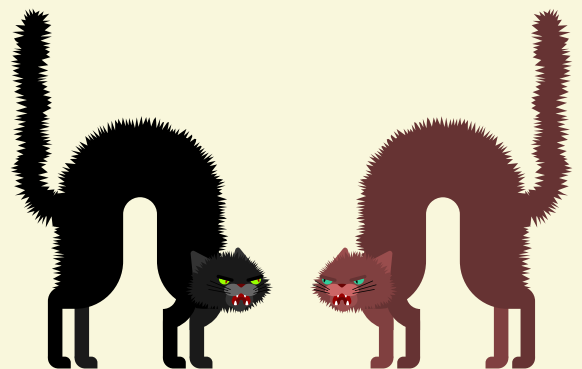

Protect birds and  
other wildlife.

Millions of birds  
and other  
animals are killed  
by cats  
every year in  
Canada!

Prevent expensive vet  
bills from cat fights

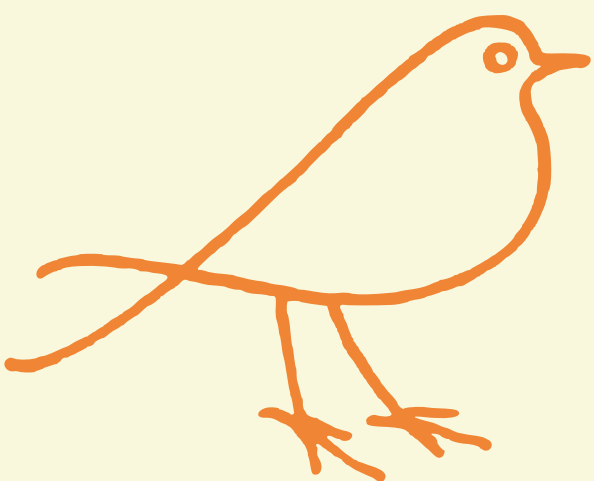

Reduce stress by  
preventing escapes

# Considerations with Catio

- In accordance with Calgary's Responsible Pet Ownership Bylaw, it is illegal for owned cats to leave your yard
- When building a catio, ensure your cat has access to shelter from the weather and access to water
- Some materials can cause dangers for wildlife. For instance, netting could entangle birds, bats and insects. Choose materials that do not add hazards to your space
